

## H-1200

**FDA, CE and RoHS compliant.**

[See the report from the Korean Research Institute of Standards and Science](#)

Product features

- For home, hospital, commercial and clinic use

- Polyelectrolyte method (PEM)
- Uses sterile distilled water (no additives)
- Low voltage, low power consumption
- 3-way safety feature
- Highly efficient

<b>Spec</b>	<b>measurement</b>	<b>H-1200</b>
Amount of gas generated indicator	cc / min	Molecular hydrogen : 866.657cc. Oxygen : 443.328cc. Total : 1,330cc. Real time measurement
Hydrogen – oxygen gas purity	%	Each > 99.99
Output	bar	1 bar
Power / current	W	Max 350W 33A
Voltage	V	Input AC 220V 50-60Hz Output DC 7.5V
Water tank capacity	L	Sterile distilled water 2L
Operational condition	Indoor 5°C ~ 45°C	<80 % Indoor humidity
weight	kg	<22
dimension	mm	L: 530mm, H : 500mm, W : 220 mm
Max time setting		Can continuously be operated up to 7 hours.
manufacturer		Hue Light Co. Ltd. Made In Korea
